

# **Programming Your Entone Remote Control**

#### **To Program Remote to Control Your TV or AUX Device:**

- Locate the device code for your desired device in the device code table provided at www.weEndeavor.com/remotecodes.
   If you cannot find the device code for your device or it does not work after trying the listed device codes for your device brand, then you can try the auto search at the end of this section.
- Turn on your device and with media inserted (if applicable).
- 3. On the remote control, press a device mode key for 5 seconds (i.e., TV or AUX). The device mode key will light up.

  NOTE: Use the "AUX" mode key for a VCR, DVD player, cable box, satellite receiver or audio device.

- 4. Enter the four-digit device code for your device. Device codes can be found at **www.weEndeavor.com/remotecodes**. If you perform this procedure correctly, the selected device mode key backlight will blink twice.
- Aim the remote control at your device and press POWER once.
   The device should turn off. If it does not respond, repeat the above steps.

NOTE: While in programming mode, if no key is received within 30 seconds or an invalid device code is entered, the device mode key backlight will blink rapidly 7 times and then stop - indicating an error.

# **Navigate Favorites on the GUIDE**

A FAVORITES LIST allows you to select channels you watch most often, placing them on a list that is quickly accessed in the GUIDE.

You can continue to press the GUIDE key on your remote control to toggle between any saved FAVORITES such as **All, Subscribed, HD, PPV** and any other FAVORITES LISTS you create.

**Entone Remote** 

NOTE: You can toggle between all \*FAVORITES by continuing to press the GUIDE key on your remote control.

  This scrolls through each channel
- > Press OK button to make channel selection
  (HINT: to bring up the next or previous 7
  channel entries, Press the Channel up/down buttons)
- > Press EXIT button once and the GUIDE will disappear from screen

Device Control Button - Press device buttons ONCE to activate other entertainment devices such as a DVD Player. (You will need to use the remote control from your external device thereafter if you don't program your device with the entone remote).

# **Programming Your UE Titan Remote Control**

#### **To Program Devices with Your UE Titan Remote:**

The Titan universal remote control comes pre-programmed to operate the set-top box that is supplied by your service provider. In addition, the Titan can be programmed to control four (4) additional home theater equipment devices.

**NOTE:** If you have another brand of set-top box that you wish to control with the STB key, you'll need to refer to "Re-Programming Set-Top Box Control".

- Turn on all of the devices that you wish to control.
- 2. On the remote control, press the mode key that you wish to program once (AUX, DVD, AUD, or TV); it blinks once.
- Press and hold SETUP until the mode LED blinks twice.
- 4. Search for the "Manufacturer's Codes" in the lookup below for the device you wish to control. Enter the first five-digit code for your device. If performed correctly, the mode LED blinks twice.

**NOTE:** If the selected mode LED emits a long blink, the entry is invalid. Repeat steps 2 through 4 and try entering the same code again.

5. Aim the remote control at the device and press POWER once. The device should turn off. If it does not, repeat steps 2 through 3, trying each code for your brand until you find one that works. If it still does not respond, try searching for the code ("Searching for Your Code").

**NOTE:** If the device does not have a POWER key, press the (Play) key. Repeat steps 2 through 5 for another mode and/or key or press and hold SETUP to exit programming. TV Code

Please use manual for device code selection
