## Recordings

Creating recordings and pausing live TV both require a DVR (Digital Video Recorder). In this section, you will learn several other ways to record besides those covered in [6 Guide - Alerts & Recordings](#).

### Quick Recording

The fastest and easiest way to begin recording is to use the **RECORD** button on your remote control.

#### Step 1: Start Recording

While watching a program, press **RECORD**. Recording will begin immediately.

You can also start a quick record in [Guide](#).

Highlight a program you want to record using the **Arrow Keys** and press **RECORD**.

If the program is currently on, recording will begin immediately. The program will be recorded until it is scheduled to finish. To manually stop the recording before it is finished, press **STOP**.

### General Guidelines About Recordings

Your TV can even be turned off and recording will take place.

You can record one program and watch a different live program or recording simultaneously.

Check with your service provider to see additional multiple recording options.

### Pausing Live TV (PLT)

Recording capability also allows you to pause live TV (PLT). While watching a live program, pressing the **Pause** button will temporarily store what you have watched. You can resume watching by pressing the **Play** button. When you use a **Network DVR** you can pause on any TV in the house.

## 7 Recording

While watching a recorded program or live TV, you can use the **Playback Control Buttons** to control video playback.

⏸ Press **PAUSE** on your remote control to pause the program. Programs can be paused as long as the current channel is not changed.

▶ Press **PLAY** to resume watching.

⏮ ⏭ Press **REWIND** or **FAST FORWARD** to reverse or advance playback from the current point. Press repeatedly to increase **FAST FORWARD** or **REWIND** speed.

■ Press **STOP** to exit playback of the program.

The Pause Live TV bar appears whenever you pause, rewind or fast forward live TV.

The center area indicates the amount of program saved. The “I-bar” shows where you are within that range.

The far left box indicates the current playback function.

The far right box indicates the original time you are at within the program.

### DVR Playback Controller

Any time you press one of the **Playback Control Buttons** while watching a previously recorded program, the DVR playback controller is displayed.

The box to the left indicates the playback function in use.

The bar in the middle gives a visual representation of where you are in the recording.

## Schedule Event

With **Schedule Event**, you can select the channel, date, start and stop time, duration, and frequency of a recording. It is helpful when you want to record or watch a portion of a program on a reoccurring basis.

### Accessing the Schedule Event Screen

There are two ways to access the screen.

#### Option 1:

When you select a future program in **Guide** and press **OK**, select the **Schedule Event** option from the

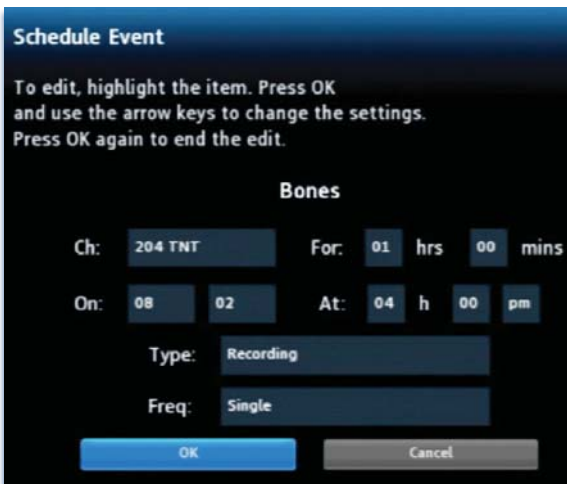

pop-up menu.

The **Schedule Event** screen is populated from the channel you were watching and will change when you select a future program in the Guide.

#### Option 2:

Press **MENU** on your remote control, navigate to **DVR**, then scroll down to **Schedule Event**, and press **OK**.

### Configuring the Schedule Event Screen

The information (the date, program name, channel, time, and frequency of recording) is listed on the **Schedule Event** screen.

If information is incorrect, highlight it and press **OK**. **Arrow Up** and **Down** on your remote to enter the correct information and press **OK**.

## 7 Recording

### Set Event Frequency

**Arrow Down** on your remote and highlight **Freq** and press **OK**. The highlight will become left/right arrows.

**Arrow Left** or **Right** on your remote until you see the frequency you want (**Single**, **Weekly**, **M-F**, **Every Day**), then press **OK**.

**Arrow Down** on your remote and highlight **OK** on the **Schedule Event** screen and press **OK** on your remote. You will be returned to **DVR** menu. Press **Exit** to return to the Guide.

See **8 DVR - Schedule Event** for details on editing the **Schedule Event** screen.

### Record By Search

---

Navigate to the Menubar by pressing the **Menu** button, highlighting the **Search** icon, and press **OK**. (See **15 Search** for complete details on **Search**.)

Once the Search topic is found, navigate to the program you want to record. Then highlight it and press **OK**.

**Arrow Down** to **Record Program** for a one-time recording and press **OK**. Or **Arrow Down** and highlight **Record Series** to record all episodes of the show.

### Recordings

Highlight **Recordings** and press **OK**.

A list of your recorded programs appears to the right.

In the lower right of the info area a percentage full item is shown. This indicates the percentage of total recording space used.

Recordings not yet watched are listed with white text; those you have previously accessed are

listed with grey text. If a program is still being recorded a red dot icon will appear to the left of the program's name.

The Whole Home icon  means that the recorded program can be viewed from any set top box in the house and will appear to the left of the program's name. (See the end of this DVR section for more details about Whole Home DVR.)

## Recordings: Watching a Recorded Program

## DVR Playback Controller

Any time you press one of the **Playback Control Buttons** while watching a previously recorded program, the DVR playback controller is displayed.

The box to the left indicates the playback function is in use.

The bar in the middle gives a visual representation of where you are in the recording.

### Step 4: Return To Live TV

When the recording ends, you will be prompted to keep or delete the recording and then returned to live TV.

If you want to return to live TV before your recording has ended, press **STOP (■)**. See **Playback Controls** on your remote.

### Recordings: Sorting Recordings

Highlight **Recordings** and press **OK** to bring up your recording list. The first listing will be highlighted. You can sort your recordings alphabetically by title, by the date recorded, by channel that originally aired the program, or by whether you have or have not viewed the recording.

To sort your recordings by any of those categories, press the **Left Arrow Key** to shift the highlight to the left. Highlight the category you want to use to sort and press **OK**.

For example, if you highlight **Date** and press **OK**, your

recordings will be sorted by the date recorded with oldest at the top and newest at the bottom.

You can reverse the sort order for any category by pressing **OK** again on that category. Using the above example, pressing **OK** again on **Date** would put your newest recordings at the top and oldest at the bottom.

### Recordings: Locking or Unlocking a Recording

Locking a recording prevents the system from deleting a program to make space for new recordings.

**Note: You can still manually delete a locked recording. Locking only prevents the system from automatically deleting it.**

#### Step 1: Pick a Recording

#### Step 2a: Lock the Recording

# Movie Ratings

## MPAA (Motion Picture Association of America) Ratings System

### G – General Audience

This is a film which contains nothing which would, in the view of the MPAA Rating Board, be offensive to parents whose younger children view the film.

### PG – Parental Guidance Suggested

The theme of a PG-rated film may itself call for parental guidance. There may be some profanity in these films. There may be some violence or brief nudity. But these elements are not deemed so intense as to require that parents be strongly cautioned beyond the suggestion of parental guidance. There is no drug use content in a PG-rated film.

### PG-13 – Parents Strongly Cautioned

A PG-13 film is one which, in the view of the MPAA Rating Board, leaps beyond the boundaries of the PG rating in theme, violence, nudity, sensuality, language, or other contents, but does not quite fit within the restricted R category. Any drug use content will initially require at least a PG-13 rating.

### R – Restricted

An R-rated film may include hard language, or tough violence, or nudity within sensual scenes, or drug abuse or other elements, or a combination of some of the above, so that parents are counseled to take this advisory rating very seriously.

### NC-17 – No Children 17 or Under

NC-17 does not necessarily mean “obscene or pornographic” in the often accepted or legal meaning of those words. The MPAA Review Board does not and cannot mark films with those words. These are legal terms and for courts to decide. The reasons for the application of an NC-17 rating can be violence or sex or aberrational behavior or drug abuse or any other elements which, when present, most parents would consider too strong and therefore off-limits for viewing by their children.

# TV Ratings

## TV Parental Guidelines Ratings System

The TV Parental Guidelines ratings provide program ratings and content ratings. This provides a clearer idea of the reason for a program's rating.

### Program Ratings

#### TV-Y – All Children

This program is designed to be appropriate for all children.

#### TV-Y7 – Directed to Older Children

This program is designed for children age 7 and above. It may include mild fantasy violence or comedic violence.

#### TV-G – General Audience

Most parents would find this program suitable for all ages.

#### TV-PG – Parental Guidance Suggested

This program contains material that parents may find unsuitable for younger children.

#### TV-14 – Parents Strongly Cautioned

This program contains some material that many parents would find unsuitable for children under 14 years of age.

#### TV-MA – TV Mature Audience Only

This program is specifically designed to be viewed by adults and therefore may be unsuitable for children under 17.

### Content Ratings

Content Ratings are shown just below the program rating.

#### FV: Fantasy Violence (only applied to TV-Y7)

For those programs where fantasy violence may be more intense or more combative than other programs in this category.

The meaning of a content rating increases as the program rating increases.

<b>V: Violence</b>	TV-PG: Moderate; TV-14: Intense; TV-MA: Graphic
<b>S: Sexuality</b>	TV-PG: Some; TV-14: Intense; TV-MA: Explicit
<b>L: Language</b>	TV-PG: Infrequent; TV-14: Strong; TV-MA: Crude
<b>D: Dialogue</b>	TV-PG: Some; TV-14: Intense; TV-MA: Not used
